

Weekly Data Snapshot

KANSAS CITY REGION | COVID-19 RESPONSE

Published on Feb 5, 2021. See footnote* for the data's timeframe.

KEY DATA POINTS

643.1* New Cases/Day

2,680.9* Average Tests/Day

24.0% % Positive Tests

8.1* New Deaths/Day

*Seven-day rolling average

WHAT YOU CAN DO

Wear a face mask

Practice social distancing

Wash hands often

Frequently clean surfaces

Stay home if you are sick

[Vaccination information](#)

[Volunteer opportunities](#)

The number of COVID-19 tests taken by residents in the Kansas City metropolitan region continues to drop. The region is now below the Centers for Disease Control and Prevention minimum recommendations of 3,150 tests per day. While some locations have shifted from testing to distributing vaccines, fewer people in the region are seeking tests. Getting tested is the only way to know for sure who has the virus and who doesn't. Other data includes:

- Daily new cases are **decreasing**.
- Hospitalizations are also **decreasing** but remain high overall.
- Labs are returning test results in **2 to 3 days**.

We're all excited to cheer on the Chiefs in the Super Bowl! For the **safest celebration**, stick with just those who live in your home. Consider connecting with friends and family via phone or video instead of getting together in person.

Questions about COVID-19 **vaccines**? Visit the new [vaccine webpage](#) on PrepareMetroKC.org for more information.

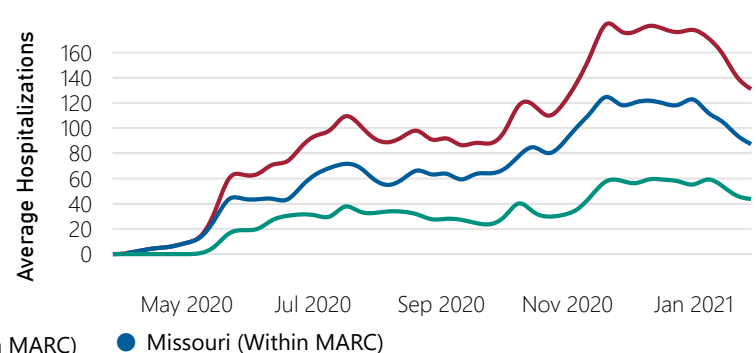

Don't forget to **get a test** if you have symptoms or think you've been exposed. Find a COVID-19 testing site near you at [PrepareMetroKC.org](#).

Key Graphs

CASES | Seven-day rolling average

COVID-19 HOSPITALIZATIONS | Seven-day rolling average

*The trends lines and data points shown here represent validated data, which requires a 10-day lag for cases, deaths and tests (Jan. 15-21, 2021); and a 2-day lag for hospitalization data (Jan. 23-29, 2021). To see more recent, unvalidated data, please visit the Kansas City Region COVID-19 Data Hub at <https://marc2.org/covidhub/>.

NOTE: The data in this summary pulls from multiple sources and what is believed to be the best, most current available data. However, because information and strategies are changing quickly and data sources are updated at different intervals, the information presented may not always be comprehensive. Please email marcinfo@marc.org with questions, corrections or input.
